Design Tutorial

Create a Concept Proposal video using Adobe Premier Rush

1) Watch the linked video tutorial that explains how to use Adobe Premier Rush

2) You are to create a two minute Concept Proposal for a design of your choice. Examples could be for a Product Design, Architectural Design, Graphic Design or for a Service. To do this:

3) Collate, name and save all the files - images, photos, scans, video walkthroughs etc. that you will be using to 'sell' your design concept.

4) Write a script to help you work out what to say.

5) Create your video timeline using your saved files. Make sure you give your project a suitable name.

6) Record your voiceovers - you might need to use a USB microphone.

7) Output your finished video to a suitable format.
