

Photoshop - Task

- ⇒ Find a product and take a photo of it on an Isometric angle. E.g. Toaster, Torch etc.
- ⇒ Use **crating** techniques to create an **Isometric** sketch of it.
- ⇒ Go over the pencils lines with a **Black fine liner** and then **scan** your image as a JPEG image.
- ⇒ Open your image in **Photoshop** and render it using brushes (with lowered opacity) as though they were Copic Markers.
- ⇒ Add a **background layer** with colour to make your drawing stand out.
- ⇒ Add your original photo as a smaller image in the corner of the page.
- ⇒ Add your name and save your work as a **PSD file** and then as a **JPEG**
