

Criteria

- Has to be eye attractive to look at and fit into the intended environment.
- Etc., Etc.

Performance

As can be seen from the rendered views, the yellow cloth and chrome hand rests give the Chair a very attractive appearance. The superimposed view of the Chair shows that it fits well into the office environment

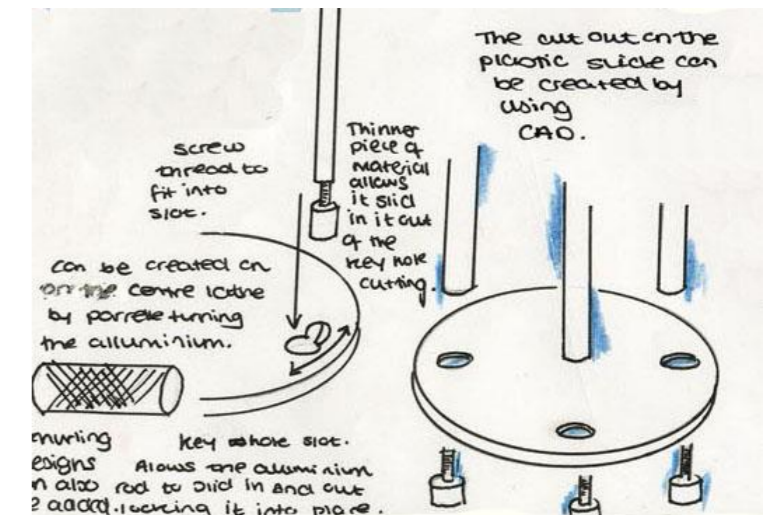

- Etc. Etc. Etc.

1. Set out your **Evaluation Table** using your **Design Criteria** in a similar manner to the one shown here.
2. Change the heading **Justification** to **Performance**.
3. Explain how well your design met each criteria. Give reasons to back up your comments.
4. Make sure you include a **Recommendations for improvement** section.
5. You can include a few small images of your Final Designs in order to highlight any points you have made.
6. Add some quick **thumbnail sketches** to highlight your **proposed modifications**.

Recommendations for Improvement

Explain how you think your Final Designs could be further improved!

Add sketches to show proposed improvements
