

No	Criteria	Type	Done	Performance
	<b>Xanadu Restaurant must:</b>			
1	<ul style="list-style-type: none"> <li>be well lit around walkways and facilities but should have some relaxing areas with more subdued lighting.</li> <li>have male and female toilets.</li> </ul>	Ess	Yes	As can be seen from the rendered views, there are street lights around all pathways. The dance floor, toilets and café are well lit but there are a few areas on the perimeter with more subdued lighting that provide more relaxed environments.
2	<ul style="list-style-type: none"> <li>Have sufficient numbers of bins for customers to dispose of their food waste.</li> </ul>	Ess	Yes	Image 5 shows the location of the toilet block. There are two male and two female toilets.
3	<ul style="list-style-type: none"> <li>Etc</li> </ul>	Des	Yes	The image at the bottom of page 12 shows an example of some of the bins that have been strategically positioned around the complex.
4	<ul style="list-style-type: none"> <li>etc</li> </ul>			Etc etc

1. Include the **Design Criteria** you came up with at the start of this project.
2. Change the heading **Justification** to **Performance**.
3. Alongside each criteria explain how well your design met that criteria. You need to provide evidence to justify your comment. E.g. refer to a render or customer comment.
4. Make sure you include a **Recommendations for improvement** section. (see below)
5. Ensure you use a coloured 'Key' for the criteria type. E.g **Ess**, **Des**, **Opt**

## Recommendations for Improvement

- Explain how you think your **Design Concept** could be improved! Include sketches or images if possible.
- **Do Not** talk about things like needing more time or a better understanding of the software!
- **Only** talk about **specific features that could be added or edited**. E.g. The addition of ramps for wheelchairs. Etc.
- If appropriate add sketches to show the possible improvement
